

ARGUMENT AGAINST MEASURE EE

VOTE NO ON MEASURE EE

THIS MEASURE

CREATES NEW DEBT and imposes a costly burden on residents without offering them guarantees that their money will be responsibly spent on improving children's education.

DOES NOT Guarantee Contracting Integrity - You have a right to know if the contractors that are bidding on lucrative projects have conflicts of interest. BUSD did not adopt the SD County Taxpayers Association's "No Pay-to-Play" policy. You deserve to know if a contractor has given money to politicians before they get work.

DOES NOT Have Good Citizens' Oversight - Tax dollars are YOUR dollars, and you should know how they are spent. Effective oversight committees promote transparency in government.

DOES NOT integrate the Adoption of School Construction and Professional Services Procurement Best Practices.

Improvements for school security and running tracks are used to grab your vote, but **numerous government and private grants are available.**

BUSD has NOT adopted best practices recommended by the San Diego County Taxpayers Association that ensure funds are responsibly spent on students' education.

BUSD has NOT shown District taxpayers that it can afford to operate or maintain a new and separate campus. VOTE NO ON MEASURE EE
