

REBUTTAL TO THE ARGUMENT IN FAVOR OF MEASURE EE

VOTE NO ON MEASURE EE

MEASURE EE

- ✓ **IS NOT NECESSARY.** Only 57 students graduated Bonsall High School in 2018. **Many new BUSD high school students go elsewhere.** BUSD student projections are highly optimistic. 2017-2018 high school enrollment was only 328.
- ✓ **MAY INCREASE STUDENT RISK** –Moves students from a “Moderate” Wildfire Risk Zone to a “Very High” Wildfire Risk Zone. (Ref: Know Your Hazards Mapping Tool)
- ✓ **OPENS THE DOOR FOR ADDITIONAL DEBT AND TAXES.** More bond measures are necessary to build project as planned.
- ✓ **WASTES YOUR MONEY--** Private and government **GRANTS** are available for security upgrades and athletic facilities.
- ✓ **IS DIRECTLY TIED to the unpopular Gird Road site** located in Fallbrook – **REJECTED five times** by voters since 1978. This is attempt number six.

The **SAN DIEGO COUNTY TAXPAYERS ASSOCIATION OPPOSES MEASURE EE.**

SDCTA says Measure EE does not guarantee contracting integrity, lacks effective citizens' oversight, and does not integrate SDCTA “Best Practices” policy.

BUSD ALREADY HAS a new high school. Additional classrooms can be constructed when needed, **saving taxpayers millions** of dollars in building and operational costs.

BUSD HAS NOT shown that it can afford to operate or maintain a separate campus. Since 2012, BUSD increased debt by over **14 million dollars** (2017 Audit).

BUSD SHOULD deliver fiscally responsible, quality education—not more **UNNEEDED** brick and mortar **DEBT.**

THE REPUBLICAN PARTY OF SAN DIEGO COUNTY RECOMMENDS a NO VOTE.
